President Is Limited To Two Terms In Future

Amendment To Constitution Is Ratified By States

(BULLETIN)
WASHINGTON, Feb. 27.—(INS)—President Truman declared today that ratification of the 22nd amendment limiting future chief executives to two terms in the White House "does not affect me."

Mr. Truman made it plain that when he makes his decision on whether to seek re-election next year he will not be influenced by the new constitutional amendment which became law when it was ratified by Nevada, 36th state to approve it.

WASHINGTON, Feb. 27.—Intimates of President Truman said today that he will wait until late spring of 1952 before deciding on whether to run for his second elected term.

This disclosure came after the nation ratified the 22nd amendment to the constitution barring any man except Harry S. Truman from having a third term in the White House.

Mr. Truman was elected vice president in 1944 and became president upon the death of Franklin D. Roosevelt. He is now serving the first term in which he was elected as president. The election was in 1948.

Excepts Present Occupant
The amendment specifically makes an exception of the present occupant from its provision that "no person shall be elected to the office of the president more than twice."

Pressure for the amendment started in 1940 when President Roosevelt broke the two-term tradition established by George Washington. Although it has been pushed primarily by Republicans, the movement had strong Democratic support both in Congress and throughout the country.

The amendment now automatically becomes a part of the constitution after General Services Administrator Jess Larson certifies the ratification of each state legislature.

This may take a week or two, even though it is merely a formality.
Nevada was the 36th state to approve the amendment, taking its action just 30 minutes after the Utah state legislature acted.

Utah, which thus became the 35th state to ratify, in 1933 was the 36th state to ratify the 21st amendment calling for repeal of the prohibition amendment.

But Democrats claim that the (Continued on Page Two)

Start Murder Case Against White House Guard Slayer

(BULLETIN)
WASHINGTON, Feb. 27.—(INS)—The government today asked a federal court jury to convict Puerto Rican fanatic Oscar Collazo of first degree murder — a verdict which would doom him to the electric chair.

U. S. Attorney George Morris Fay made the demand in his opening address to the jury at Collazo's trial for shooting White House guard Leslie Coffelt during the Nov. 1 attempt to assassinate President Truman.

WASHINGTON, Feb. 27.—The government begins presenting its first-degree murder case against Puerto Rican fanatic Oscar Collazo today before a jury made up mainly of housewives.

The meek-looking Collazo can be sent to the electric chair if convicted of slaying White House guard Leslie Coffelt during the Nov. 1 attempt to assassinate President Truman.

The prosecution planned to call District of Columbia Coroner A. Magruder McDonald as its first important witness today.

Performed Autopsies
McDonald performed autopsies on both Coffelt and Collazo's confederate, Grisello Torresola, also slain in the bloody Blair House battle.

Prosecution attorneys, who predicted the trial will take about two weeks, said some of the White House policemen scheduled to testify may take the stand later today.

PARIS, Feb. 27.—The French foreign office declared today that it will send no formal reply to a Russian note charging violation of the Franco-Soviet alliance.

It joined America and Britain in accusing Moscow of maintaining military forces far in excess of its need.

A foreign office communique said that the recent Soviet note to Britain charging the London government with violating its treaty of friendship shows "public discussions do not permit notable progress seeking a lessening of international tension."

The communique in connection with the Soviet note to Paris of Jan. 20 said:

BOSTON, Feb. 27.—(INS)—Fortunately all was peaceful in the Massachusetts legislature yesterday when Democratic House speaker Thomas P. O'Neill banged his gavel. Union Revival Effort Launched In City Monday

Dr. Hyman Appelmann Greeted By Large Throng At Cathedral

In a great opening service at the Cathedral, Monday evening, New Castle's city-wide evangelistic crusade was launched with an estimated 1,200 on hand for the first in a 21-day series of revival meetings.

Dr. Hyman J. Appelmann of Kansas City, Mo., evangelist for the three-week period, held his large audience in rapt attention as he preached his first sermon entitled "How An Englishman Saved America." The internationally-known evangelist was introduced by Rev. George Jones, general chairman of the campaign which is known as the "Christ for Greater New Castle Evangelistic Crusade."

Getting off to an auspicious start, the series of old time revival meetings was appropriately opened with the singing of "Revive Us Again," a favorite of revivalists down through the years. Rev. John Troy, musical director for the effort, capably led the audience in singing of this and other favorite hymns, leading the large assemblage as one great choir.

Dr. Will Gordon, interim pastor of First Baptist church, gave the invocation, asking Divine guidance for the protracted services which will continue until Sunday, March 18, at the Cathedral auditorium.

Auto Price Freeze May Be Extended
WASHINGTON, Feb. 27.—(INS)—A government spokesman said today there is a "chance" that the automobile price freeze, which expires Thursday, may be extended.

He declared that the office of general stabilization is working on a price stabilization plan, affecting automobiles and other products, that may be put into effect before the deadline.

If it is not, the OPS spokesman declared, the agency will have to take some action on automobile prices which are frozen at the Dec. 1 level.

'Refugees' Civil Defense Test Planned At Mercer
HARRISBURG, Feb. 27.—(INS)—Several hundred "refugees" will participate in a pioneer test of civil defense preparedness in a non-target area Sunday in Mercer borough.

Local defense forces and supporting units will mobilize to receive the refugees who will pour into the community after hypothetical enemy attacks on Pittsburgh and Youngstown, O., according to A. C. Miller, assistant director of the Civil Defense commission.

"To the best of my knowledge," he said, "this is the first time any town in the United States has scheduled a demonstration of its resources as a reception center for homeless and wounded victims of enemy action."

"As a pilot study that will serve as a valuable guide to countless other communities of similar size and location, I consider it just as important as the direct attack exercises made in metropolitan centers such as Philadelphia."

Probers May Decide Whether To Call Boyle

By CHARLES B. SEIB
(L. N. S. Staff Correspondent)
WASHINGTON, Feb. 27.—Senate "influence" probes called a closed door session with E. Merl Young today at which they may decide whether to summon Democratic national chairman William Boyle as a witness.

Sen. Fulbright (D. Ark., said the main purpose of the secret hearing was to hear Young, husband of a White House secretary, reply to a report that he received an expensive fur coat as part of an "influence, fee" paid by a would-be government borrower.

However, a committee source said that the question of whether to call Boyle—whose name has come up frequently on the hearings on influence and political pressure in the Reconstruction Finance Corp.—would probably be discussed.

Young told the Fulbright subcommittee last week that he would ask Boyle to come and give testimony to support his story that he never asked \$85,000 as a fee for (Continued on Page Two)

Testimonial Is Given Matthews

Employees of the City of New Castle Water company and their wives said goodbye to the old boss Monday night and hello to the new one.

Gathering in a Croton avenue dining room the employees tendered J. Leper Matthews, manager of the company for 18 years, a testimonial dinner. They said goodbye in words and in gifts but the biggest thing of the whole affair was the air of sincerity that marked it.

Past, Present, Future
It might have been termed "Managers, Past, Present and Future." Present as special guests were Howard B. Richards who was the manager of the water company for 17 years, now retired, and Verne Corle of Greensburg, who replaces Mr. Matthews here.

Mr. Matthews assumes the managerial duties of the Westmoreland County Municipal Authority on March 1. Present also as special guests were Vice President Ray Wendell and William Langridge of the engineering department in Philadelphia.

Rev. Jackson Allison opened the dinner with an invocation and a meal of spaghetti and roast chicken followed. Lou Krueger, former of the water company, was the general chairman of the evening and arranged the program.

First to speak was Howard B. Richards, former superintendent. (Continued on Page Two)

Eighteen B.&O. Cars Derailed

BRADDOCK, Pa., Feb. 27.—(INS)—Eighteen gondola-type freight cars—part of an 108-car Baltimore & Ohio train bound from Connellsville to New Castle—were derailed in Braddock early today.

No one was injured.
About 1,000 feet of rails were ripped up by the derailment, which, railroad officials believe, was caused by a steel ingot that dropped through the flooring of a gondola car to the track.

A car loaded with steel scrap crashed into the rear of a two-story brick building occupied by a produce company. Another rammed over a six-foot embankment and ruined about 15 feet of paving.

Governor Fine's Cabinet Given Senate Approval

Woodside Is Named As Attorney General; Campbell Bank Head

By JOHN PAGET
(L. N. S. Staff Correspondent)
HARRISBURG, Feb. 27.—Gov. John S. Fine's cabinet today carried the senate's brand of approval with the exception of Milo F. Draemel as forests and waters secretary.

He will continue in an acting capacity because his name was not called for a roll call vote.

Woodside Attorney General
During a tedious session last night, 20 Democrats joined 29 Republicans to unanimously confirm the nominees including Dauphin county Judge Robert E. Woodside, of Millersburg, as attorney general and L. M. Campbell, an Oil City banker, as banking secretary succeeding D. Emmert Brumbaugh, of Claysburg.

The senate also approved a house amendment limiting absentee voting privileges to members of the armed forces and sent to the governor the legislation setting up a soldier vote procedure and switching the 1951 primary date from September 18 to July 24.

The virtual end of the wrangle over Fine's cabinet may herald a speedup in the legislative tempo as a forerunner to announcement of the biennial budget within a fortnight.

Declares Cream Of Army Being Lost In Korea

WASHINGTON, Feb. 27.—(INS)—Sen. Johnson (D. Tex., said today the "cream of the army" is being lost in Korea and asked passage of the Draft-Universal Military Training bill to protect the nation.

The chairman of the Senate Preparedness subcommittee opened Senate debate on the legislation—which would lower the induction age to 18—with a warning that "inaction will extend to our nation an invitation to disaster."

Seasoned Veterans
Johnson referred to the nation's 50,000 casualties in Korea and said:
"The ranks of trained, seasoned, experienced officers and men of the army have been seriously depleted. The men we have been losing were by and large the cream of the army."

"This bill will give the American people the protection they expect, the protection they demand. They will gladly do their duty as Americans if we will give them the chance."

Johnson argued that a "prepared nation can control its own destiny" while "an unprepared nation has its destiny controlled for it by aggressors."

The bill is aimed at providing the manpower to enable the armed forces to build up to 3.5 million men—the largest standing military strength the nation has ever maintained in peacetime.

When the present emergency eases, the bill provides for the start of UMT.

Marines Join Battle Front At Hoengsong

U.N. Forces Move Through Deep Mud In Advance

By HOWARD HANDLEMAN
(Far Eastern Director, L. N. S.)

TOKYO, Feb. 28.—(Wednesday)—Aggressive U.S. marine and army patrols drove through steady rain over swampy roads Tuesday to probe increasingly strong Communist defenses in central Korea.

Five sharp enemy rear-guard counterattacks were hurled back by the U.S. Second Division.

International News Service War Correspondent Robert Schakne flew over the battle area in a fire control plane and reported:
"The Reds were digging networks of foxholes and gun emplacements all along the front. Allied trucks, tanks and jeeps struggled to ford swollen streams and moved through slippery knee-deep mud toward the enemy positions."

Marines Join Attack
U.S. marines, back in action for the first time since the Hungnam evacuation last December, joined "Operation Killer" in the bitterly contested fight for the mid-Korean road hub of Hoengsong, 50 miles east of Seoul and 34 miles from the 38th Parallel.

The marines sent out aggressive patrols and engaged in an intermittent artillery duel with Communist guns on a ride line north of Hoengsong.

The battle-seasoned leathernecks were in the final major unit of the U.S. Eighth Army to be thrown into the operation designed to soften an expected March offensive by Chinese and North Koreans.

Clementis Is Under Arrest

Announcement Is Made Officially

PRAGUE, Feb. 27.—(INS)—The arrest of former Czech Foreign Minister Vladimir Clementis on charges of espionage was announced officially today by the Czechoslovak Communist party.

The announcement said that Clementis, who had succeeded the late Jan Masaryk in the foreign ministry, and four other prominent Czechs also had been expelled from the Communist party for treasonous acts.

A statement issued by party secretary Stefan Bastovsky on Clementis cleared up a month-long mystery over his fate. He had been reported missing from Prague since late in January.

The announcement was in the form of a report of a meeting of the central committee of the Czech Communist party held in Prague Castle last Wednesday but made public only today.

Although revealing that Clementis had been seized, it did not reveal where he is being held.

The report issued in Prague said that a total of 169,544 members of the Czech Communist party had been expelled in the course of a recent purge of persons deemed unreliable.

A foreign office spokesman, countering Soviet charges, emphasized that Russia's post-war attitude is responsible for the rearmament of western nations.

He pointed out that the Russians have signed 23 different alliances behind the iron curtain.

A foreign office "commentary" accompanying the communiqué accused Russia of maintaining 5,000,000 men under arms. It said this force included 170 divisions.

The French said 50 divisions are "massed on the western frontiers of the U. S. S. R., 20 of them in East Germany, two in Austria and 12 in Hungary, Poland and Romania".

The commentary charged further that Russia "transformed the region behind the iron curtain into a solidly constituted military bloc".

to the many church people who could unite in such a common cause for which they had assembled, stating that the city always welcomed such efforts which would tend to make this city a better place in which to live.

Rev. George Sarber spoke briefly in behalf of the ministers of the city as he welcomed the evangelistic party to the city.

Rev. Troy, before directing the massed choir assembled on the Cathedral platform, stated that he believed in a revival which was worked up and not one that was prayed down. He led the union choir in singing of "Wonderful Grace of Jesus" with the presentation very well done although only two brief practice sessions were held prior to the campaign's start.

Prior to Dr. Appleman's stirring address, Rev. Adam Lutzweiler was heard in a marimba and vocal selection, with Rev. Troy also pleading with a vocal solo. Jerry Renkenberger accompanied on an electric organ and Rev. C. Bergeron assisted at the Cathedral grand piano.

Dr. Appleman Speaks

Chairman, Rev. Jones, introduced Dr. Appleman to the audience, assuring them that they would hear one of America's outstanding revivalists, who preaches nightly in a Christ honoring manner.

Dr. Appleman gave a brief resume of his early life prior to coming to America, portraying most vividly that the American way of life was the best of any country in the world barring none. He pointed out that the foundations of America was laid in a prayer meeting in the boat Mayflower off of Plymouth Rock, attributing this to our solid foundation and the reason for God's favor upon this country.

He enumerated during his remarks the successes of America, the sins of America and the salvation of America. He stated today America lives as though there were no God. The sin of America he told his listeners is intemperance, not just in drinking but in spending, and other gross sins. Other sins were ingratitude, indifference and impotence. Evangelist Appleman related that the only thing today that will save America is repentance, which will come through a Holy Ghost revival.

Campaign Continues

The mid-century crusade for souls continues this evening at 7 o'clock when Dr. Appleman will speak on "Meeting the Great Emergency." The musical program featuring every member of the musical party as well as the great choir will preface the sermon with a stirring presentation of Gospel music. Members of choirs in the city are invited to swell the union choir. A rehearsal session is set at 7 o'clock prior to the revival service.

Mid-day services are conducted at the First Presbyterian church daily except Saturday and Sunday at 12:05 p. m. A pre-service prayer meeting opens at 11:45 a. m. Services of prayer precedes the evening meetings at 7 p. m.

ENGINEER AUXILIARY 42nd ANNIVERSARY

Members of the Grand International auxiliary to the Brotherhood of Locomotive Engineers met Saturday evening in the Green room of the Y.W.C.A. to celebrate the 42nd anniversary of the organization. Fifty-five guests attended the party, with husbands as special guests of the occasion.

The group sang "America," with Mrs. Fred Kelley giving the invocation. A delicious baked ham dinner with the trimmings was enjoyed at 6:30 o'clock, with the tables appointed with floral centerpieces and patriotic favors and decorations. The G.I.A. song was sung by the group, accompanied by Mrs. Georgia Hurst. Pep singing was led by Mrs. Edward Beahm.

REARMING JAPAN

Progress is being made on a treaty with Japan, main purpose of which is to rearm the former enemy and add strength to the anti-Communist cause. It is no longer a question of rearming Japan. The decision is to when and how.

International agreements and the new Japanese constitution declare against rearming Japan. Therefore the result must be achieved by indirection, or under the plea of self-defense.

There is fear that Russia would invade Japan if it saw a good chance of success, and the self-defense approach is no joke. If Japan could reassemble an army such as it formerly had, the Russians would have quite a job getting in. The same disquieting factor applies here as in West German. Will Russia start its military machine rolling before Japan can rearm?

Tentative rearmament plans call for an increase of the present four divisions of "Junipers," or police, who wear U.S. small arms. They would be supplied with artillery. An air force, too, would be needed. As for the Jap navy, which has been destroyed, there has been no decision as to whether this former maritime power will be allowed to regain sea strength in the Pacific. Probably only small ships will be sanctioned by the U.S.

This country will be called upon to supply the weapons and such naval craft as will be allowed. The burden of Japanese rearmament will be largely on American taxpayers. And the U.S. will be called upon to step up its program of shoring up the Japanese economic system, now to be burdened with war preparations.

ANOTHER PHASE IN KOREAN WARFARE

Smashing Allied counter-attack in Korea, inflicting casualties on thousands of Chinese and North Korean Communists, is notable both for its resounding military success and the absence of excessive hopes that this is anything but another phase in a long and costly struggle.

Unquestionably the GIs and other United Nations forces have more than justified the faith of their commanders that the Communist onslaught could be stopped. They are shattering each Red drive and in doing so are running up the price paid by the enemy in killed and wounded to a point that even Red China, with its hordes of manpower, could not stand indefinitely.

But still more striking is the new and sober spirit which seems to have taken hold both in Korea and in the capitals of the nations which are linked in this protracted fight to prove that aggression does not pay. Instead of either exaggerated confidence that the war could be ended quickly or pessimistic belief that it couldn't be won at all, there is evidence of a calm realization that the job ahead may be hard, but it is not hopeless.

General Douglas MacArthur has contributed to the support of U.N. forces in other capitals, especially in London, by his wise statement that he will not use his authority to recross the 38th Parallel without taking into account all the political factors.

That is looking ahead, since U.N. forces are not yet up to this arbitrary dividing line. But it tends to reassure the British and other nations that no opportunity to bring about an end of the fighting by agreement will be lost through a decision to cross the parallel based solely on military necessities.

So long as the Chinese want an agreement only on their own terms, and so long as their troops are fighting against the U.N., no agreement appears possible. But the continued killing of the Communist forces may bring about a change.

It is tremendously encouraging to all Americans, particularly the relatives of those fighting in Korea, that the war is going better. But the enemy is still capable of launching further attacks. Until the Chinese are ready to stop the fighting and discuss terms on an acceptable basis the U.N. forces have to keep on with their job of destroying the Communist armies.

THE FIGHT ON POLIO

Records of medical science reveal polio has grown up, so to speak, and is finding its victims among adults instead of children as formerly. Public health authorities say polio has followed the evolutionary pattern of many infants and child diseases and is no longer so common by comparison with former years.

Dr. Edward G. McGavran, dean of the school of public health at the University of North Carolina, says formerly almost everyone, at some time or another, suffered a mild polio attack, which may now escape because of precautions taken to prevent spread of the disease.

The mild cases apparently conferred lifelong immunity. Those now afflicted, including an increasing number of adults, never had a mild attack which brought immunity. This also applies to older children who become afflicted.

Dr. McGavran believes continued research will stop polio before curative or preventive vaccines or other medicines are discovered. How polio spreads is still the object of intensive study, in the hope of breaking the chain of transmission. Success in this search would be a great victory for medical science.

Keeping up appearances and keeping down expenses is getting harder all the time.

A barrage of occurrences is battering the world, some of them historical, others merely hysterical.

United Nations Not Mentioned

Nominations for the 1951 Nobel Peace Prize have been announced in Oslo, Norway, and the names put forward embrace an imposing list of world personalities who have labored for freedom, culture and civilization.

Yet there is what might seem to be a somewhat surprising omission.

No one offered the United Nations as candidate, despite the fact that this organization, in the midst of its ups and downs, is presented to the world day in and day out as the only existing body of universal representation consecrated to the cause of peace.

True enough, the name of U.N. Secretary General Trygve Lie has been offered.

But Lie is a paid executive of the world organization. And if the award should go to him, it would be for his individual efforts—such as his tour of European capitals last year in an effort to find a bridge between east and west.

Whether he returned sadder, wiser or merely disillusioned he has not revealed. But the fact remains that he was proposed on the basis of personal initiative and not because he is the figurehead of the United Nations itself.

So far as international organizations are concerned, the Nobel Peace Prize has a curious—although quite consistent—history.

Alfred B. Nobel, a Swedish scientist and the inventor of dynamite, died on December 10, 1896, and left nine million dollars, the interest of which was to be distributed annually to those who had contributed most to the benefit of mankind during the preceding year.

His bequest made sharp stipulations. There was to be no discrimination with regard to race, creed, color. But no lines were drawn as to whether the prize was to go to individuals only or whether organizations—such as the United Nations as it now exists—might qualify.

In the course of decades past, collective bodies have been in a definite minority.

The Nobel committee gave its peace prize in 1904 to the Institute of International Law. That was the first time an established organization was so recognized.

In 1910, the prize was given to the International Peace Bureau. The International Red Cross, with headquarters in Switzerland, received it in 1917 and again in 1944.

In between, in 1939, the Nansen International Office for Refugees, which aided the plight of millions persecuted by tyranny, received it.

Got Honor in 1947

And the American and English Friends Service Committees, otherwise known as the Quakers,

well you never know. How many people watching co-signers work in the Gambia would ever suspect they also were co-signers?

But my barber is a little confused about these investigations.

As he understands it, several basketball players are being held for taking bribes to influence the RFC.

He says "But I think the president's idea of having one high commissioner to handle all bets for the RFC will insure a cleaner sport in the future and less blowing of the whistle by Senator Fulbright."

My barber doesn't think the basketball players should be too severely punished. He says "who knows...they may have been training for careers as Washington contact men."

He believes the idea in both cases as the same. Win the game so it could be posted in the record, but by a narrower margin than it should have been won.

In one case the taxpayers get stuck and in the other it's the bookies. It's the same basic idea...we lose while we win.

Money's just a handy symbol. Of all things, from gem to thimble.

And our daily meat and bread. It is pills when you are aching. It's the flock a mother's making. For some little curly head.

And this truth must be conceded. By us all, through life it's needed.

But to worship it is madness. Money cannot comfort sadness. Or an ounce of courage buy. Skill and willingness to do things.

Can be listed here as two things. That no merchant can supply. And a nature brave and sunny.

Can grow rich, with little money. (Copyright, 1951, Edgar A. Guest)

Bible Thought

Be ye therefore sober and watch unto prayer.—1 Peter 4:7.

Well you to you like that... Pittsburgh papers have been running a series of diets... called the Fat Boy... seems as if the Miami papers also like the idea... probably think that the tourist trade would not only like to put on tan but take off pounds.

... gives the victim plenty to eat but not to eat. The diet as it appears... takes off pounds with a full tummy. But the pay off... the series was sent to this scribe by a vacationist in the sunny south.

Could that be an indication that too many pounds cling to this frame? Well it could be... and we have felt at times that it would be nice to carry around less poundage... and when those thoughts were most active we have attempted to stay on a diet... one diet we remember called for the eating of hot dogs... nothing but hot dogs... no buns... all you want but nothing more. Rather a tiresome ordeal... then there was one that called for steak... beef steak... Sounded interesting at the beginning but even beef steak took on a new look after the fifth day.

The crisp diet... could be one of many... held out for celery, carrots and lettuce... all raw. Also whole wheat crackers... very little liquids... that diet too was interesting but considered by family and friends as annoying... too much noise.

One sure way to take off pounds is to work 16 to 18 hours a day... hard labor... even tried that for two days... became too tired. The thought of little to eat and ditch digging still has a tendency to wear us out. Maybe nature will have something to say about the extra fat... maybe we are supposed to be heavy, that's where we think today anyhow. So you in the south... with the frosted citrus fruit... thanks for thinking of us even if it is with a Fat Boy diet.

FEBRUARY THAW

Rome In February

(By HENRY McLEMORE)

ROME, Feb. 27.—I got the surprise of my life when I flew in here from Germany today.

I had gained the impression from earlier visits—all made during the summer, at the height of the tourist season—that Rome was largely an American city, most of whose inhabitants spoke English, carried cameras, and complained of sore feet as a result of walking from morning till night.

Before I tackle Rome traffic again I am going to take a rapid course in Italian.

I want to be able to yell "Help!" if nothing else.

(Distributed by McNaught Syndicate, Inc.)

Different in Seasons

Rome in February and Rome in June, July and August are as different as you can imagine.

Not that I have anything against Americans, cameras, or sore feet, but there is such a thing as having too much of them. What a pleasure it is to go into a store and be served immediately without having to wait half an hour while a contingent of Americans haggle over the price of a hand-tooled leather box and an embroidered luncheon set.

Walking about the streets is a whole of a lot nicer in February than it is in the summer. The ten thousand self-appointed guides, offering to lead you to a place where you can get it cheaper, are in hibernation, gathering strength to run summer tourists crazy.

Today we actually walked across the Square of St. Peter's, up the great steps, and into the basilica, without one single person offering to sell us a postal card, or to take our picture, or to guide us through St. Peter's itself.

As all who have been here in summer well know, Rome can be miserably, miserably hot and humid. Only the incomparable sights of the Eternal City would cause a man to walk about in the noonday sun.

Climate Has Appeal

But now, in February, the climate is a chamber of commerce man's dream. It's that delightful, coolish-warm weather, if you know what I mean, and the sky is a cloudless blue. It's the sort of weather that makes even the laziest man save taxi fare because he feels like walking for miles.

The one thing that remains constant in Rome summer and winter is the traffic. How the Italians survive it years in and out is one of the unsolved mysteries. It makes no sense whatsoever. There are lights and traffic cops, to be sure, but they are just a part of the mad scheme to see to it that life and limb is ever in peril from buses, passenger cars, trucks, motorcycles, scooters, bicycles, and horse drawn hacks.

For a pedestrian to be timid in Rome is for him to stand on one street corner for the rest of his life. To ever cross a street he must egg himself on by muttering the classic Marine phrase, "Come on you so-and-so's, do you want to live all your life?" and charge into the maelstrom.

The tiny Italian cars can turn on a dime and so are able to follow and run down a dodging pedestrian like a bird dog after a crippled quail. A little Fiat chased me two blocks today before a bus, scenting its natural prey, took care of the Fiat.

Really, Rome traffic seemingly follows the law of the jungle. The buses hunt the automobiles. The automobiles hunt the motorcycles. The motorcycles hunt the motor scooters. The motor scooters hunt the bicyclists, and all of them hunt the pedestrians.

Before I tackle Rome traffic again I am going to take a rapid course in Italian.

I want to be able to yell "Help!" if nothing else.

Most famous Pierre Du Pont legend concerns the day he invited a honeymoon couple to view his priceless collection of Chinese art. Awaiting the arrival of the host, the young bride picked up a small vase to examine it more closely, then gasped with dismay as it slipped from her hands and shattered into a thousand pieces on the stone floor.

At this precise moment, Pierre Du Pont came patterning along. "Oh, Mr. Du Pont," wailed the bride, "I've smashed the little vase that stood in the little niche here." Mr. Du Pont looked at the niche indicated, gave the bride a reassuring pat on the back, announced, "Don't worry that pretty little head of yours; the vase was one of the least important in my collection"—and fainted dead away.

Dialogue overheard in the office of a small-town eye, ear, and throat specialist: "What do I owe you for curing my deafness, young man?" "Ten dollars." "What's that?" "Twenty dollars." "I said thirty dollars, ma'am." (Copyright, 1951, by Bennett Cerf, Distributed by King Features Syndicate)

French Justice

(By HOLMES ALEXANDER)

WASHINGTON, D. C., Feb. 27.—David Rousset, a fiery French writer, has successfully done what is seldom tried by Communist tail-twisters in America—he has carried his fight against Communism into the courts of libel and slander and there he has recently won a ringing victory.

L'affaire Rousset seems worth recording because it has made a sizzling sensation all over West Europe this winter and because only one American daily, the Christian Science Monitor, has given it any real coverage on this side of the Atlantic. The case harks back to some testimony by Louis Budenz before the ex-Tydings committee last year. Budenz said that he and other ex-Reds fought shy of the libel courts which could be used as booby traps for "bleeding white" any in-courts which could be used as booby traps because of Communist slander, cautious plaintiff who asked damages because of Communist slander. But here is an internationally important case where the booby trap, snapped shut on the Communist Party and extracted, as we shall see, considerable blood in the form of money, ridicule and bad publicity.

History Of Episode

Rousset, who recovered from youthful leanings toward Communism, fought with the French underground in World War II and did some penal servitude in Nazi concentration camps, including Buchenwald. In November, 1949, he wrote some blazing articles in a French magazine against this form of human depravity, and he baldly named Russia as a present-day offender. During the next six months more than 200 European magazine and newspaper articles joined in denouncing the Nazi-Soviet system of mass imprisonment. And before long, sure enough, came the Soviet retaliation. "Lettres Francaises," a Kremlin organ in Paris, called Rousset a monstrous liar and other fighting names.

At this point Rousset did the unusual thing—he sued "Lettres Francaises" for damages of 10 million francs (\$30,000). He also petitioned the court that the verdict be published in the newspapers of 50 different countries, including Russia. This sounds like an impossible and useless request—but wait and see.

With Pierre Daix and Claude Morgan, editor and director of the magazine as defendants, the trial got under way last December amid tumultuous publicity. French law forbids the newspapers to print running accounts of a libel suit, but this statute carries all the force of our own law. The motor scooters hunt the bicyclists, and all of them hunt the pedestrians.

Before I tackle Rome traffic again I am going to take a rapid course in Italian.

Student Prepared Own Electrocutation At Chicago Quarters

CHICAGO, Feb. 2.—(INS)—A Chicago coroner's inquest will try to discover today why a 24-year-old electronics student elaborately prepared his own electrocution and then waited while a radio alarm clock hummed off the last seconds of his life.

John Auspurgur of Cincinnati was found in his YMCA room yesterday by an employee, who unplugged the clock which had wires leading to bracelets on the electrocuted man's wrist and ankle.

The clock had been set for 6:50 and because of the body's condition police theorized the alarm went off last Saturday morning or evening. The 110 volts of electricity may have been coursing through Auspurgur's body for two days until the clock was disconnected.

Auspurgur, who had been studying under the GI bill of rights at the Industrial Training Institute, had bound himself to a bed with ropes and taped his mouth—apparently to prevent any outcry when the current hit him.

The door had been tied shut from the inside with a rope. Auspurgur's sister, Mrs. Robert W. Nickle of Chicago, said her brother had been injured in a auto accident a year ago which resulted in the shortening of one of his legs.

However, she said he was in good spirits when she last saw him Friday night. Mrs. Nickle added that she knew of no reason why he should have taken his life.

No person is under legal obligation to bear the name of his parents.

Stand Of F.B.I. Is Upheld By Court

WASHINGTON, Feb. 27.—(INS)—The supreme court on Monday upheld the right of the FBI to refuse disclosure of its top secret records in court proceedings.

The decision came on a side issue in the attempt of ex-gangster Roger Touhy to obtain his release from Illinois state prison. Touhy is serving a life term for the kidnapping in the late 1930's of Jake "The Barber" Factor.

Touhy had charged that he was convicted by fraud and demanded that the FBI produce the records of its "show-up" in which the mobster was accused as Factor's abductor.

In a five-to-three decision, the court supported the refusal of Chicago FBI chief George R. McSwain to turn over the records. McSwain's refusal resulted in a contempt of federal court finding against him which was later reversed by an appeals bench.

Revival Services At Volant Will Be Continued

With the renewed interest in old-time revivals becoming more and more evident, the meetings conducted by Dr. Jack Munyan at the Volant Presbyterian church have met with great success. Attendance at last week's meetings were sufficient to warrant the evangelist's being held over for services this week with the final worship being held Sunday afternoon and evening, March 4.

According to Rev. A. B. Weisz, pastor of the church, Friday and Sunday nights drew the largest crowds. In addition to the sermons by Dr. Munyan, special music and singing are part of each program, with each meeting being designated for certain groups: Tuesday night will be Sunday-school night; Wednesday, family night; Thursday, local talent, and Friday, young people's service.

It is especially urged that anyone in the Volant community possessing talent in any line acceptable for church service, will contact either Rev. Weisz or Dr. Jack Runyan before Thursday evening. Already listed on that evening's schedule are special selections by the Presbyterian choir and accordion solos by little Timmy Allen, son of Mr. and Mrs. John Allen, Volant.

Sponsor Lacking For Proposed State Income Tax Bill

HARRISBURG, Feb. 27.—(INS)—A proposed state income tax based on federal income liability today lacked a sponsor in the House.

The bill was drawn up by the Legislative Reference Bureau and sent to the House with a typewritten note showing it was intended for Highways Committee Chairman Baker Royer (R) Lancaster, who also is chairman of the Joint State Government Commission.

The original intent of the bill was to underwrite the cost of civil defense, according to Royer who said he wouldn't introduce it "unless it had administration support."

The proposal contained a January 1, 1951, effective date and the amount of the tax per centage was left blank by the bureau.

"On and after the effective date of this act," it proposed, "an annual state tax of (blank) per cent is imposed on the federal income tax liability" of each resident "as such liability is fixed and determined by the Federal Internal Revenue Code."

Royer said last night that the bill was drafted by the reference bureau and emphasized that it was "one" of those ideas that popped up but said he hadn't any idea "how word of it got out."

Royer said he did not know whether it was constitutional and pointed out it was "just an idea" that had been discussed some months ago.

The state's constitution bans a graduated income tax but does not prohibit a flat income levy.

House Majority Leader Charles C. Smith, of Philadelphia, and Ways and Means Committee Chairman Wrayburn Hall, of Potter, both said they were unaware that such a proposal had been prepared.

New Wilmington Rotarians Hear Talk On Forests

Members of the New Wilmington Rotary club heard a talk on the nation's forests by Richard J. Costley, supervisor of the Allegheny National Forests in Warren, Pa., at the club's regular weekly dinner meeting.

Mr. Costley gave a very interesting talk on the forest situation in the country and explained the difference between National Forests and National Parks. The National Forests are to be used, while the National Parks are only to be looked at.

Lynn Donaldson of Warren travelled to New Wilmington with Mr. Costley and gave a short talk urging Rotary members to join the sportsmen's organizations in the community.

Last night's meeting was the last at the United Presbyterian church for the season. C. B. Rosey, White was in charge of the program for the evening.

Introduce Bill In Ohio To Strike At Amateur Sports Fixes

COLUMBUS, O., Feb. 27.—(INS)—New York's basketball scandal reverberated through Ohio's legislative halls today with the introduction of a Senate bill to strike at "fixes" of amateur sports.

Sen. Anthony Celebrezze (D-Cleveland) sponsored the measure, which would extend to amateurs the provisions of Ohio's present law against bribing professional or semi-pro athletes. The law provides a maximum penalty of a \$10,000 fine and five years in prison.

The bill also covers attempts to limit the score even in cases where actual throwing of a game is not contemplated. It also affects managers, trainers, coaches and even "prospective participants" in all sports, including horse-racing.

The bill goes to the Senate Judiciary Committee today for consideration.

Slaughter Houses In New York May Have To Shutdown

NEW YORK, Feb. 27.—(INS)—A spokesman for the Metropolitan Slaughterers' Association in New York said today that as a result of housewives' resistance to high meat prices some of the city's slaughter houses may have to shut down unless the situation is relieved.

Higher grade meats are piling up in warehouses and Saul Graff of the Slaughterers' Association said demand for meat in the city has dropped as much as 30 per cent in the last ten days.

Members of the association, Graff said, had laid off some ten per cent of their workers.

Shutdowns will come, he added, "unless some relief is extended by the meat division of the Office of Price Stabilization."

Industry To Be Told How To Get Materials

By WILLIAM KERWIN
(L. N. S. Staff Correspondent)

WASHINGTON, Feb. 27.—(INS)—The government prepared today to tell industry how it may obtain critical materials to keep production lines operating during the emergency.

National Production Authority spokesmen said the agency will issue an order permitting big and little business to obtain spare parts and other materials for maintenance and repair.

In effect, the directive will mark the government's first step directly to help industrial establishments keep their machines in repair and good operating shape.

The order will apply universally to all manufacturers and businesses—producing civilian as well as military articles—and city-owned public utilities.

Officials said that under the order a shoemaker, for example, could obtain a spare part for a machine merely by placing an order with the producer and certifying it for maintenance or repair.

Word the NPA will issue the order came as the agency planned to ban the use of natural rubber in more than 100 non-defense items including most civilian sponge rubber articles, "falsies," innertubes and floor tiling.

The rubber order, to be issued "in a few days," will be made effective March 1 and will reduce natural rubber content in an estimated 40,000 rubber articles.

Industry and government officials agreed that synthetic rubber will be available to continue production of most articles banned by the NPA.

However, the agency warned that it is beginning a study that may broaden the list of banned articles and also affects some items made with synthetics.

The controls will force producers to depend entirely on synthetic to make passenger car innertubes and rubber tile floorings and coating for fiber floor coverings.

Inner tubes made of natural rubber and officials declared the conversion can be carried out easily.

Princess Margaret Leading Quiet Life

LONDON, Feb. 27.—(INS)—Court sources said today that King George VI has quieted the night life of Princess Margaret by requesting that she not make too much of a "public display" but he has imposed no "curfew."

These sources say that the boycott of swank restaurants and night clubs in the past few months by the gay princess is a direct result of the "advice" of papa.

It was said that the king wants to halt any recurrence of gossip which has labeled his youngest daughter a "play girl." His solution reportedly was in suggestion that she "have her fun" at private parties, dinners and dances.

In support of his intention not to be a spoil-sport, it has been noted that Margaret danced until nearly 4 a. m. at the recent gala Pythley Hunt ball.

But testifying also to the effectiveness of the monarch's plan, it has been noted that Margaret has not been seen in a restaurant or night club since well before Christmas.

Regular meeting of the Knights of Columbus Council No. 512, will be held Wednesday, February 28, at 8:30 o'clock in the club rooms, North Jefferson street.

Reports will be made at this session for the communion breakfast which is scheduled Sunday, March 4. Further plans will be discussed, and all members who have tickets are asked to distribute them. The building committee will meet at 7 p. m., on Wednesday, also. Grand knight of the organization is Sam L. Dambrocia.

States Have No Right To Censor Films Shown On Television

WASHINGTON, Feb. 27.—(INS)—The Supreme Court has ruled in effect that states have no right to censor films shown on television.

The tribunal refused to consider an appeal by the Pennsylvania Censorship Board challenging a federal court decision which declared the Federal Communications Commission has the sole right to regulate TV.

Five Pennsylvania TV operators started the court fight in protest of a board regulation adopted in January, 1949, to extend censorship of theater films to those shown on the air.

The censors contended that the Federal Communications act, which forms the authority of the FCC, governs radio transmissions only, and that the content of TV films is subject to state approval.

They explained that their contested regulation was drafted in compliance with a 35-year-old state law requiring censorship of immoral films and in response to protests from movie theater owners.

Charles Clark, Weaver street, newsboy, was robbed of \$65, by two highwaymen who were in an auto at 12:50 a. m. today in Engine house alley, which runs off Scioto street, he told police later.

He said he was riding his bicycle through the alley when two men who had a Ford, called to him.

Clark stopped his bicycle. One of the men struck him on the head and the other seized him.

The man who had struck him reached into Clark's inside pocket and took \$65.

Garfield, N. J. Schools Closed By Teachers' Strike

GARFIELD, N. J., Feb. 27.—(INS)—School authorities called it a strike.

Union officials claimed it was an epidemic brought on by low morale.

But whatever it was, Garfield's 3,500 school children were happy today because there were no classes.

The schools were closed when 97 of the town's 161 teachers, members of the American Federation of Teachers, reported "sick."

The teachers have been demanding a raise of \$1,400 a year but the recently-adopted budget provides for a boost of only \$125.

School board chairman Julius Kramer charged the teachers showed "utter and callous disregard" of the welfare of the children, but union spokesman Mrs. Isabel Allen said, "I know the teachers have reached a very low ebb in morale and it is very much easier to become ill when your spirits are low."

Crime Probers Are In Albany

ALBANY, N. Y., Feb. 27.—(INS)—Senate crime investigators moved into Albany today for examination of the records of Saratoga County in a search for evidence of possible tieups with national gambling syndicates.

Key law enforcement officers of the Republican-controlled county were requested to meet with Kefauver committee investigator Peter C. Murray for "private talks" in an Albany hotel.

County Sheriff Frank S. Hathorn and Peter F. Hofess, deputy public safety commissioner of Saratoga Springs, said they received telegrams ordering them to appear with "official and private records."

Also told to appear were Walter F. Ahearn, Saratoga Springs chief of detectives, and Police Chief Patrick F. Rox who with Hathorn and Hofess appeared before the committee at a New York hearing February 13 and 14.

Physicians said Rox, who suffered a heart attack after attending the New York hearing, is still confined to Saratoga hospital and will not be able to take part in today's talks.

The Kefauver committee is also investigating charges of wide open gambling in the county. Following the New York hearing Sen. Tobey (R) N. H., said the group had been given "testimony that is an amazing revelation of confused and aborted marginal jurisdiction of authority by those who failed to act in the public interest."

Civilian Supplies Of Paper Will Not Be Much Affected

WASHINGTON, Feb. 27.—(INS)—Officials declared today an order reserving five to ten per cent of the nation's paper production for the government will not seriously affect civilian supplies.

National production authority paper experts said that the regulation will result in a more equitable distribution of government orders at the country's paper mills.

This, they said, in turn will assure more orderly purchasing operations and should make buying easier for most of the paper-consuming industries.

More New Castleites Greet Deacon Down At St. Pete

By JAMES P. CALDWELL
ST. PETERSBURG, Fla., Feb. 26.—This letter is like a can of tomatoes that has sprung a leak. When you open it you may find the contents a little stale. So when I tell you that Judge and Mrs. Walter Brahm, and Attorney and Mrs. J. Clyde Gilfillan, visited me recently, they may have already broadcast the news in New Castle. But just in case they have not, I will undertake, in my feeble way, to expose the plot.

It was a bright and shining day when they left their hotel at Clearwater bound for St. Petersburg, with the main object in view of surprising me in my lair, and engaging me in a game of Canasta. But it happened that when they arrived at my hotel, I was out looking after my interests in the green benches.

Saved By Legs
Clyde Gilfillan was sent out to round me up, the others remaining at the hotel. Clyde spotted me in the center of a street crossing, where pedestrians had the green light. The light changed as we were shaking hands, but we made good use of our legs and made the curb.

Back at the hotel I was greeted with the good old New Castle handshake by the other members of the party. A New Castle handshake is one where the grip is firm, and the motion like working the handle of an old-fashioned wooden pump. I like this New Castle shake in preference to that of the individual who greets you with a clammy touch, and fails to wiggle.

Time For Eats
Our greetings over, Judge Brahm consulted his wrist, and announced that it was time for dinner, "and would accompany the party to lunch." I would, of course, as it is against my principles to turn down an invitation to dinner. We went to a female dining hall, run by a woman named Mary Bradford. It is a large place with pretty waitresses, and hat racks under your chair. The Judge and Clyde

didn't need hat racks, as they were tanning their scalp. As we passed in I whispered to the hostess that this was a wedding party, so she placed us at a table reserved for newly-weds. A big bouquet of Glads smiled at us from the center.

During the conversation which ensued the judge and Clyde expressed a desire to try a seat on the famous green benches. The ladies said they would be glad to go along. What happened? You guessed it, no body sat on the green benches, and as I bid the party good-bye, there was a look of disappointment on some of the faces.

Late Arrivals
Among the late arrivals are Mr. and Mrs. Samuel A. Weinschenk, their daughter, Mrs. Robert Henderson, and the latter's children, Florence and Sharon. They are located at St. Petersburg beach on the Gulf of Mexico, so near the water that they can hear the fish snore at night, and listen to what the wild waves are saying by day. At home Mr. Weinschenk is known as the efficient trust officer of the Lawrence Savings & Trust Company. On the beach he is known as Neptune's brother, and master of the waves.

When Jim Clements and I visited the party last Saturday we found Mrs. Weinschenk sitting under a canopy on the beach. Her grandchildren, Florence and Sharon, were digging in the glistening white sand for gold. They suspended operations long enough to find Mrs. Henderson and Sam, whom they fished out of the water. Sam had just greased himself to prevent sun blisters, and was anything but beautiful. We learned that they spend six hours a day on the beach. The remainder of the day is spent wishing they were on the beach. They expect to be here a month, and when Sam gets back behind his desk he is going to wear such a sun tan that he will have to be introduced to his best friends.

Ollie Rogers Here
When I meandered up street last Saturday morning, who should

greet me from a green bench, but Ollie Rogers, of The New Castle News composing room. Ollie was seated with a woman on one side and his brother, Charles Rogers, on the other. I learned that Ollie and his wife and Mr. and Mrs. Harry H. Reynolds, of Zelienople, had motored down. Mrs. Rogers and Mrs. Reynolds are sisters, and Mr. Reynolds is a brother of Chester Reynolds of New Castle.

Ollie began his printing career in The News office, away back in 1897, when Jacob Cox was foreman. He has been at it ever since, and figures that he has walked 1,947,621 miles on the composing room floor, and worn out 185 pairs of shoes.

On the way down here the party visited various points of interest in Florida.

An Early Bird
While I was out to breakfast one morning, Ivor Davis, of the Davis Coal & Supply Company, came to the hotel to see me. As I was not there, he did not see me, but he left his card, saying, "Sorry I failed to see you." Why do people come to see you when you're out?

Mr. and Mrs. Charles Kerr are among the late arrivals. Mrs. Kerr is a daughter of the late Mr. and Mrs. Thomas Wright, and a sister of Alex Wright, who built the Wright block on East Washington street, which I see has recently changed taxpayers. Mrs. Wright is well known in the nursing profession, to which she belonged, previous to her marriage to Mr. Kerr.

Train Dispatchers Eat
A group of former New Castle train dispatchers and railroad men recently held a picnic here at a little body of water, known as Maggior Lake. Mrs. Carl Hart, now of New Wilmington, and wintering here, has furnished me with the following gruesome details of the party. Former trainmaster, L. A. Pringle, baked the brown cake; Fred Myers, the white cake; Carl Hart and F. C. McCreary made coffee; J. A. Martin baked the ham.

At the party were P. F. Pullan and wife, of Youngstown, O.; F. H. Myers and wife, of New Castle, now of St. Pete.; F. C. McCreary and wife, of Poland, O.; J. L. Pringle and wife, New Castle and St. Pete. This was the second get-together of those who retired from the Pennsylvania office when the offices were moved to Cleveland.

Visit The Nesses
Mr. and Mrs. A. R. Beckdol, the later the former Pearl Dufford, who are vacationing here, visited Mr. and Mrs. Frank Nessel, at Safety Harbor last Sunday. The Nesses, who are from New Castle, have a home at the harbor. While on the trip they saw the famous Konok tree which is now in full bloom. It is said that there are only two of these trees in the United States, one here and one in California. They are native of Asia.

Among New Castle visitors here since my last report are: Mr. and

Large Contracts Given In State

HARRISBURG, Feb. 27.—(INS)—Officials scouting Pennsylvania's role in the nation's armament program today were told that contracts totaling 170 million dollars

have been channeled into the state.

Roy Helton, a researcher for the state planning board, advised representatives of four statewide groups meeting in Harrisburg that the sum undoubtedly will increase as the defense program is accelerated.

He pointed out that during World War II contracts worth 12 billion dollars were handled by Pennsylvania firms.

The statewide groups met to discuss maximum participation by Pennsylvania firms in the armaments program.

BOY IS KILLED

BERLIN, Pa., Feb. 27.—(INS)—Gary Loy Schrock, 5, son of Mr. and Mrs. William C. Schrock of nearby Brothers Valley Township, was killed Monday when he was struck by a car as he ran into its path on Route 160 near Berlin.

State police said the boy was thrown 24 feet by the impact. John

H. Rhoads, 68, of R. D. 4, Berlin, was driving the car.

The death was the sixth this year on Somerset county highways. All have occurred this month.

IF THE STOCK EXCHANGE DOESN'T OWN ANY STOCK...WHO DOES?

A long time ago a lot of folks had the idea all stocks were owned by a fistful of rich people. Maybe that idea was right once.

Today's estimates of how many people own stocks range up to 15,000,000. All kinds of people own stocks. Office workers...housewives...mechanics...school teachers...lawyers...storekeepers...farmers. Everyday people with small incomes and large. Owning stock is owning a "piece of a business"—risking one's money to share in the profits.

You may even own stock indirectly—whether you know it or not. Most companies issuing fire and casualty insurance, as well as many pension funds, invest a part of their resources in the stocks of American industry.

What some people do not know is that the Stock Exchange does not buy or sell stocks. It doesn't put the price tag on them, either. The Exchange does provide a market place where people can buy or sell securities. The Exchange does see that prices are arrived at openly and fairly and published promptly.

The handling of investors' orders to buy or sell a few shares or hundreds is the day-to-day business of member firms of the Exchange. Information about prominent corporations, including earnings and dividend records, can always be had at their offices, without obligation.

Man Convicted Of Contempt Of U.S. Congress

WASHINGTON, Feb. 27.—(INS)—Julius Emspak, secretary-treasurer of the United Electrical Workers, was convicted of contempt of Congress today for refusing to answer questions of the House un-American activities committee.

Emspak was found guilty by District Judge F. Dickinson Letts, who heard the case without a jury. Letts refused the labor leader bail and ordered him committed immediately to jail.

At the same time, Letts turned down motions for a new trial. Defense attorneys said they would petition the U. S. Court of Appeals to order Emspak released on bail pending an appeal from the conviction.

Emspak refused to answer questions on communism put to him by the House group. The United Electrical Workers was expelled from the CIO last year on charges that it was left wing.

FAITH in the Future

Two young people join their lives together. They buy a home. They raise a family.

A man with an idea borrows capital. He starts a business. It succeeds.

A boy goes to college. He becomes a doctor, lawyer, teacher, engineer, or businessman.

That's faith—American style—in action. Faith in self, in country, in the future. Faith translated into terms of effort, energy, and enterprise.

Here at the Provident Mutual we see that kind of faith in action. Millions of dollars invested in life insurance every year are part of it. They form the sound, basic pattern that helps to make dreams come true. For beyond the immediate family protection these insurance dollars provide, they go on to strengthen our whole economy—building new industries, expanding old ones, helping to stimulate the huge production program on which the future of the nation rests.

Because we, too, have faith, and take a special pride in seeing it justified, we are happy to report the past year's accomplishments of Provident Mutual. During 1950, our insurance in force increased to a new high of \$1,398,600,000. New insurance paid for totaled \$114,486,000, an increase of 20 per cent over 1949, and our total assets reached an all-time high of \$650,227,000.

We think this evidence of practical planning on the part of so many people is the clearest proof that American faith in the future of the individual and of the nation works out because it's faith in action.

Material Cutbacks Will Likely Hurt Small Industries

CLEVELAND, Feb. 27.—(INS)—Steel Magazine said today that possible plant suspensions and curtailments are expected to mark the start of second quarter operations in the metalworking industry.

The national metalworking periodical predicted dislocations will occur after April 1st when supplies of steel and other metals for civilian goods become scarcer.

Steel explained: "While automakers will not be hurt too much by cutbacks in materials, the effects on smaller manufacturers will be more serious."

"Some industrialists believe the cutbacks in nonferrous metals will

be more disruptive than the restriction on steel."

"Many small and medium size plants will feel the dislocation keenly, and are trying to offset the reduction in civilian manufacture by obtaining defense prime or sub-contracts."

The trade paper noted that steel production is being pushed at a rate approximating close to two million tons weekly.

"The national ingot rate rose one-half point to 99.5 per cent of capacity last week." Steel added, "but full recovery from the

effects of the recent switchmen's strike remains to be attained."

Operations prior to the strike averaged 101.5 per cent with weekly output at an alltime high of 2,025,000 tons.

Supreme Court Says Red Records Can Be Demanded

WASHINGTON, Feb. 27.—(INS)—The Supreme Court ruled Monday that courts can demand a look at the records of the Communist party.

The five-to-three decision came in the court's refusal to upset a contempt of court conviction for a suspected Colorado Communist who balked at turning party records over to a Federal Grand Jury in 1948.

Justices Black, Douglas and Frankfurter dissented from the opinion which was written by Chief Justice Vinson.

Vinson, defining the limits and conditions of the invocation by a witness of the constitution's guarantee against self-incrimination, noted:

"As a preliminary matter we note that petitioner had no privilege with respect to the books of the party—books and records kept in a representative rather than in a personal capacity cannot be the subject of the personal privilege against self-incrimination even though production of the papers might tend to incriminate (their keeper) personally."

Balked At Giving Records
The petitioner, Jane Rogers, told the Denver Grand Jury that she had been treasurer of the Communist party of Denver until January, 1948.

She balked at producing the Red group's records and at identifying to whom she had given them on the grounds that she did not wish to incriminate others.

The case, which involved several other alleged Reds now appealing to the Supreme Court, evoked a high tribunal decision last year to the effect that courts and grand juries may not require witnesses to tell whether they are Communists.

Vinson held that Mrs. Rogers, who was sentenced to four months for repeated refusal to produce the

BONN, Germany, Feb. 27.—(INS)—British High Commissioner Sir Ivone Kirkpatrick told Chancellor Dr. Konrad Adenauer today that the North sea island of Helgoland will be returned to Germany before March, 1952.

Kirkpatrick said that the transfer will take place as soon as the Royal air force can find another suitable target for Royal air force practice bombing.

Helgoland has been "invaded" several times by squatters demanding the island's return.

Sees Migration Of Workers In Nation

BOSTON, Feb. 27.—(INS)—American contractors were told today that the defense construction program will leave some areas "rather dry of work" and force migration of workers in their industry to other parts of the country.

Walker L. Couse, Detroit, Mich., president of the Associated General Contractors of America, advised contractors at their 32nd annual convention not to accept new work without first making sure of the availability of materials.

LIONS CLUB

On Wednesday evening members of the Lions club held their regular dinner and meeting with their sons or someone else's son as special guests. P. C. Rice of the Pennsylvania State Police gave a very interesting talk to the group.

P. C. Rice is from New Wilmington and is attached to the Mercer Barracks. A movie on safety was shown by Lyle Richards.

On Saturday evening the club held a pie social to which the public was invited in the Grange hall.

GIRL SCOUTS

Troop 49 held their regular meeting in the church with progress being made toward the earning of more badges.

On Friday evening Troop 32 sponsored a square dance in the Grange Hall. The affair was a big success. The girls decorated the hall which was donated by the Grange for the evening. Leaders of the troop, Mrs. Carl Eppinger, Miss Betty Rogers and Mrs. Martha Brown were pleasantly surprised when they were presented with corsages by the girls.

During intermission a Barber Shop Quartette sang several numbers. One of the members of the quartette is a son of Mr. and Mrs. Pander who operate the Penzolt station. In April a Barber Shop Quartette program will be presented at the Cathedral in New Castle. During the evening refreshments were served by the Girl Scouts. On Saturday the Boy Scouts aided in cleaning the hall. Otto Golt called the dance.

Girl Scout cookies will be delivered late this week or early next week.

Public Dependency In Pennsylvania Now Decreasing

HARRISBURG, Feb. 27.—(INS)—The State Department of Public Assistance today said federal statistics indicate "public dependency in Pennsylvania is decreasing faster than in other large industrial states or in the country as a whole."

The report, the DPA added, was based on data supplied by the Federal Social Security Administration.

"From the start of the Korean war to the end of November," the DPA announced, "the number of Public Assistance cases per 1,000 population dropped from 20 to 17.6 in Pennsylvania, from 20.2 to 19.2 in the other industrial states as a group and from 26.9 to 26.3 in the country as a whole."

At the beginning of World War II, the DPA added, the number of relief cases per 1,000 population was 56.7 while at the end of hostilities it had fallen to 13.5 compared with the national average of 18.3. The department said that in mid-February, there were 329,621 persons on relief, a drop of 3514 persons from the end of January.

Suggests Rules For Two Major Political Parties

BOSTON, Feb. 27.—(INS)—Dr. Daniel L. Marsh, retiring president of Boston University, on Monday proposed "ten commandments" for the Democratic and Republican party platforms.

Speaking at the convention of the associated general contractors of America, Dr. Marsh suggested these political rules for the two major parties:

1. You shall adhere to the Republican form of government.
2. You shall keep the system of checks and balances in government inviolable, allowing no one branch to encroach upon another.
3. Remember always that a republic is a government by law and not by men.
4. You shall relegate to innocuous desuetude any politician who seeks to ride into office on waves of hate and suspicion, for the essential unity that constitutes us one people is the palladium of our liberty, happiness, safety and prosperity.
5. You shall not permit any organized faction or minority

group to put its will in place of the will of the nation.

6. You shall keep the spirit and practice of discussion alive.

7. You shall preserve a sound economic structure.

8. You shall cultivate cooperative peace and harmony with all nations.

9. You shall promote education.

10. You shall maintain the spiritual foundations of the republic.

Polish Hero Is Eulogized

Rev. Kuzminski Talks
On Revolutionary Hero

Born on the same day of the year as President Lincoln, the memory of General Thaddeus Kosciuszko, has been all but forgotten as the nation pays tribute to the martyred president, Rev. Fr. Edward C. Kuzminski, told fellow Rotarians at their noon luncheon meeting in The Castleton, Monday.

Yet General Kosciuszko, after being appointed a captain in the Polish army, gave up this commission and borrowed money to come to America to fight in the cause of the Colonists, in which he differed from many of the Europeans who came here and joined the Revolutionary cause, because many were nothing but adventurers, seeking to further their own ends, Father Kuzminski, pastor of the Holy Trinity Polish National church stated. There were of course exceptions.

Born February 12
February 12 this year marked the 205th anniversary of Kosciuszko's birth, and Father Kuzminski pointed out many things about this little-known hero which enhanced his greatness in the minds of his heroes.

Kosciuszko, while a professional soldier, made his decision to come to America following his graduation from French and Polish military schools. He was an engineer, he pointed out, and laid out the plans for West Point, and today, there can be found honoring his memory, the famous Kosciuszko Gardens.

Washington, he stated, termed Kosciuszko "a gentleman of science and merit." Thomas Jefferson, father and author of the Declaration of Independence, re-

ognized a kindred spirit of democratic idealism in Kosciuszko, about whom he wrote to General Gates, another hero of the Revolution: "He is as pure a son of liberty as I have ever known, and of that liberty to which is to go to all, and not to the few and rich alone."

Having served the ideal of human freedom in America, he devoted his life to the same ideal for Poland, holding to personal and political standards far in advance of his age.

Was "Hero In Defeat"

Fate, which smiled approvingly upon Kosciuszko, the American patriot, frowned disapprovingly upon Kosciuszko, the Polish National hero. Yet, history called him a "hero in defeat." Two years of captivity in Russia did not break his spirit, nor did the Czar Paul's flattering pardon and gifts of money and an estate with 1,500 serfs to go with it, seduce him from the cause of liberty. In time, the Polish hero returned the Czar's gifts, and freed his serfs. To the Czar's face he refused to receive his old sword, saying simply that he had no use for a sword, since he no longer had a country to defend.

Still suffering from his wounds, broken in body and spirit, he returned to America, where he was greeted with great acclaim. In the turmoil and disturbances that followed in the wake of the French Revolution, Kosciuszko thought there was a chance to do something for Poland, and left America again in 1798.

In his last will and testament, dated May 5, 1798, whereby he disposed of his grants of American land and money, very considerable at that time, for the purpose of purchasing Negroes and giving them liberty in his name.

In closing, Father Kuzminski said, "As he was firm in his ideals, let us be firm in ours. We shall pledge our nation to no course which does not advance the cause of human freedom."

Today's Fashion Flash

By PHYLLIS BATTLE

NEW YORK, Feb. 27.—(INS)—Spring has suddenly become the mating season for men's and women's wardrobes.

There are more "look-alike" clothes for love-or-like couples than ever before in fashion history.

For instance, a man and his mate may now have match sport suits in tweeds, worsteds and gabardines.

They may buy identically printed ties (four-in-hands for the men, bow-ties for the women) in a variety of price ranges.

They may also show mutual-mode affections in sweaters, cufflinks, pajamas, belts and shirts. And for business couples, there are even ladies' handbags matched to men's briefcases!

When you use Easter Seals you help a crippled child to walk or talk or laugh.

Senate Approves Life Insurance For Active Service

WASHINGTON, Feb. 27.—(INS)—The senate on Monday approved by voice vote legislation providing every serviceman on duty with

a free \$10,000 life insurance policy.

The measure, sponsored by Sen. George (D) Ga., differs greatly from a service insurance bill passed by the house and the differences must be worked out in conference.

The senate measure provides for payment of \$10,000 in 240 monthly installments to the heirs of men killed on active duty. George told the senate that it continues provisions now in effect.

Letter from home.....

Mr. Congressman:

You raised my income taxes last Fall. Now I read you are talking about doing it again. But you still let billions in business and profits escape paying to support our nation.

How come you permit these businesses--such as co-ops and many mutuals--to go scot free, or nearly so, year after year while raising my income taxes again and again? You are responsible. Tax these tax-exempts first before doing any more talking about raising my taxes, or anyone else's!

YOUR Congressman and Senators Need a Letter Like This From YOU, Too!

Congress permits cooperative corporations, savings and loan associations, credit unions, many mutuals—even some mutual fire and casualty insurance companies—to escape Federal income taxes through special exemptions given to them year after year. Congress permitted this through two World Wars... now is allowing it again in the present emergency when our government desperately needs the help of ALL. Write your Congressman and Senators NOW... Demand that Congress TAX THE UNTAXED before increasing your or anyone else's Federal income tax again.

You are talking about raising income taxes again. Before you increase my taxes again—or raise anyone else's—you must FULLY tax the business profits of co-ops, mutuals and other business tax-exempts. Repeat the pertinent paragraphs of the Internal Revenue code under which co-ops and others escape income taxes and declare their incomes to be taxable incomes at the corporate level before distribution as patronage dividends or in any other manner. Tax the untaxed, now!

Titans Face Waynesburg Tonight, Seek 20th Win

Westminster College cagers travel to Waynesburg tonight for a return engagement with the Waynesburg College Yellow Jacks.

The Titans, who defeated the Jacks by a nine point margin earlier this season with a home court advantage, are expected to find tougher competition on a foreign floor tonight.

Westminster will enter the contest with a 19-5 record compared to a 14-6 record for the Yellow Jacks. The Jacks defeated two teams that have wins over Westminster College this season—St. Francis and Washington & Jefferson. Both victories were on the Waynesburg floor.

Sybert In Shape
Waynesburg has dropped contests to Duquesne, Geneva, Washington & Jefferson in a return engagement, Marietta, and West Virginia.

Coach Washbaugh's squad will be in better shape for the game than in recent weeks. Jerry Sybert, who injured an ankle at the St. Francis game three weeks ago is now ready for a starting berth again.

The Titans play one more game this week and then end intercollegiate competition for the season March 8 at Farrell with a return engagement with Washington & Jefferson. Saturday Westminster closes out the home season with a return bout with Carnegie Tech.

Pep TKO Winner In Second Round

SARASOTA, Fla., Feb. 27.—(INS)—Former world's featherweight champion Willie Pep flashed his old form last night with a two-round knockout over Billy Hogan at Sarasota.

Hogan, a rangy 134-pounder from New Orleans, was a last-minute substitute for Marvin Ford of Charlotte, N. C., when Ford could not make the weight for the 10-round main event.

Pep, who came in at 128½, pounded Hogan at will with hard rights to the head in the first round and knocked him down just before the bell.

Early in the second, the Hartford, Conn., veteran dazed Hogan with a whistling right cross to the jaw and referee Tony Angela stepped in and stopped the fight.

Ex-LIU Star Player Admits 'Fixing' Games

Nathan Miller Has Confessed

By HOWARD SIGMUND

NEW YORK, Feb. 27.—A former Long Island university basketball guard was booked early today on a charge of taking \$1500 in bribes to "dump" two games at Madison Square Garden in 1948.

The arrest of Nathan Miller, a graduate student at New York university, was the 10th since February 18 in the sordid exposure of basketball fixing at the New York Garden.

Miller, 25, and a graduate of LIU in 1950, was considered by Coach Claire Bee as "my trouble-shooter" for his aggressive style of play.

Questioned Five Hours
Miller was arrested shortly before midnight following more than five hours of questioning in the office of District Attorney Frank S. Hogan. Included in those now under arrest in the pyramiding scandal are three members of the current LIU team.

Miller, a recreation director who is studying for a master's degree, was charged specifically with contriving "to lose and to limit the margin of victory" while taking \$1,000 for throwing the game against Bowling Green, 64 to 97 on December 4, 1948, and accepting \$500 for tossing the game against Western Kentucky, 58 to 83, the following December 30.

Bribe Not Named
Hogan did not say by whom Miller was bribed. Now being held without bail on charges of fixing games for which the current LIU players were arrested is Salvatore T. Sollazzo, ex-convict and jeweler.

Sollazzo, described by Hogan as "the brains" behind the gambling fix racket, has been served with a government lien for more than a million dollars in unpaid taxes. Hogan said he paid out at least \$30,000 in the past two seasons, to shave the final scores to achieve betting coups.

Nine Under Arrest
Miller was a teammate of Eddie Gard, accused go-between for Sollazzo. Gard, who is being held in protective custody, was being questioned last night at the time Miller was brought in by two detectives.

The arrest of Miller brought to nine the number of college players, past and present, named in dumping charges. Others arrested are Sherman White, Leroy Smith and Adolph Bigos of LIU; Ed Warner, Ed Roman and Al Roth of City College of New York; Connie Schaff of New York university and Gard.

Bill Bradley Meets Lou Scott In Akron

Bill Bradley, local light heavyweight, will box Lou Scott in a battle tonight in the Armory, at Akron. Bill is the only active pro fighter here, at present.

Baseball Commissioner Albert B. Chandler may be the only man who, within the space of a year, first got a \$15,000 raise and then got fired—for no apparent reason either time.

HERE and THERE IN SPORTS LAND

APPARENTLY FBI-miler Fred Wilt is creeping up on Don Gehring. In past events, Don has had comfortable leads at the finish but Saturday night in New York Don won by only three inches. . . . As yet, it is not known where the Little Baseball league will play their games this summer. . . . The Seven Star issue of The Veteran Boxer, Philadelphia magazine, is out. It contains an account of Paris Cangey's battles with Frankie Ferro and Maxie Strub, written by Here and There. . . . Answer: Ray Robinson's right name is Walker Smith. . . . Joe Louis says he is now ready to box Ezzard Charles in a new round attempt to win back the heavyweight crown. He won in the last round from Andy Walker in San Francisco when the referee stopped the fight to save Walker from needless punishment. His statement recalls that the fight should not be stopped in Youngstown. Most of the fans, including Here and There believed Picato had won. However, Manager Jimmie Dime disagreed and said Babe's opponent had won. . . . At the Bossert plant is a strapping, big outdoorsman who likes to shoulder a gun and bring down big game in Michigan's woods, and also hook big fish in Michigan waters. He is Pappy Phelps. . . . When Old Man Flu gets you, he flops you for a fall, as Here and There discovered several days ago. . . . Julius McCoy flipped 18 points for Farrell and Horvath 11 for Aliquippa in the Section 3 titular floor clash which Farrell won 51-46.

MCGRATH TOOK the 60-yard free-style in 31.6, Cassell captured the 200-yard breast-stroke in 2:47.3 and Gavett captured the 440-yard free-style in 3:49.2 for Westminster in the tank meet with Allegheny. Incidentally, Zuberbuhler of Allegheny established a new varsity record for the 200-yard backstroke in 2:28. . . . Emil (Mose) Mancine, now of Los Angeles and Israel (Izzy) Solomon of Loraine, Calif., recently played a round of golf at Brookside course, Pasadena, Calif. They sought but failed to find Emil Groves in Glendale, but later met Mr. and Mrs. Bob Kildoo at Hollywood. He is an ex-caddy at the Old Myny and was a member of Conn's City Golf clubs for three consecutive years. The team was composed of Solomon, Groves, Jimmie Glonie, Mike Flack and Tony Conn. While there, Mose and Izzy talked to Wallace Trautz, another ex-caddy. Bill Fleming, former local golf course manager, is a Los Angeles resident. . . . Report has been received that dogs are running deer in Princeton vicinity. No doubt the game protector, and possibly Howard McLure, dog law enforcement agent, will investigate the report. . . . Last winter reports were received stating that dogs had been pulling down deer in the Heinz camp vicinity. . . . Joe Rick is taking advantage of spring-like weather by putting his pacers, trotters and green ones through training at the Rick stock farm, Harlansburg road, where every Sunday visitors are welcome.

Meeting At Erie Settles Issue; New Castle Ready

The Middle-Atlantic baseball league fought tooth and nail for its very existence last night at Erie, a four-hour battle, and finally emerged victorious, over almost unsurmountable circumstances.

Directors of the league voted to operate the oldest minor league in the nation with six teams for 1951—New Castle, Butler, Youngstown, Erie, Niagara Falls, N. Y., and Lockport, N. Y.

Raise Veteran Limit
The league voted to retain its present Class C classification, but raised the veteran player limit to 10 instead of six as has been the custom. A veteran in baseball has had three years or more of organized ball.

The Mid-Atlantic will strive to give the fans a much better brand of Class C ball than they have ever seen before and with increased veterans can do this.

Scarazzo Represents New Castle
Al Scarazzo, president of the New Castle Citizens Baseball Inc., represented the New Castle Indians at the meeting, and offered several motions. Accompanying Scarazzo to Erie was William Smeal, treasurer of the Board of Directors, and Charles "Bugs" Walther, News Sports writer, and assistant business manager this year.

The New Castle team will be known henceforth as the Indians, owing to the optional working agreement with the Cleveland baseball club. All ties with the Washington Senators have been severed by mutual agreement.

Scarazzo announced to the league officials and directors "New Castle is ready to go in 1951 with as strong a team as is possible to secure under present emergency conditions."

Contracts in Mail Today

With the definite assurance that the league will operate this year, Attorney Frank Moretti is busy today sending out contracts to the following players: George Eikenberg, Danny Dondoro, Al Mouton, Gene Bilo, Bernard Rossman, Stan Zedalis, Frank Wagner, Bill Horne, Johnny Vizzini, Steve Magula, Art Toles and Ed Johnston, the latter two negro players being sent here by Cleveland for further seasoning.

Several of the boys mentioned above are in service but are still the property of New Castle. Mouton and Vizzini are known to be in the army.

Directors' Meeting Thursday

Scarazzo has called for a board of directors meeting for eight o'clock Thursday night at 16 South Mill street office. There is considerable hard work to be done in fielding a team this year.

There was considerable agitation at the meeting last night for a B classification, but in order to save the league with one team, Erie, dissenting, it was voted upon to stay in a class C circuit. Mike Cannavino has taken over the management of the Erie Sailors. Cannavino formerly operated the New Castle team, relinquishing his franchise in 1950.

Youngstown fought hard for a B league but had to relinquish to save the operation for Youngstown. Koval represented Youngstown. There were five teams anxious for class B ball: New Castle, Butler, Niagara Falls, Youngstown and Lockport.

Chokes with Emotion
President Elmer Daily delivered what proved to be the "bombshell" speech of the evening, an earnest plea to save the league operation for its 27th year. Daily, near to choking with emotion several times during his talk, pleaded with the owners to not let the fans down. "We definitely need organized baseball this year more than any other year as a morale builder, but we must decide tonight. This is the zero hour," Daily said.

A vote followed and the league for 1951 was assured.

Senate Approves Holahan For Job As Commissioner

HARRISBURG, Feb. 27.—(INS)—John D. Holahan of Pittsburgh today carried the senate's unanimous approval as a \$7500-a-year state athletic commissioner.

Holahan, recently associated with Pittsburgh fight promoters, was nominated by Gov. John S. Fine to succeed John M. Montgomery of McKeesport. Montgomery was fired during the 1950 Republican primary by then Gov. James H. Duff for supporting the gubernatorial candidacy of Fine's opponent, Jay Cooke.

Elliot Steelers Lose At Monaca

Any hopes the National League champion Phillies hold for repeating in 1951 apparently depend upon the same players who captured the pennant last year.

Elliot Steelers dropped three matches to Monaca, in the Tri-County Women's loop at Monaca, last week. They bowl at Ambridge, Friday night.

Eagles Surprise Strizzi Squad

The Eagles of the American junior division of the city recreation basketball league surprised the Strizzi team, front-runners of the junior division in the National league, by upending the studio team 29-25 in an overtime contest. Prior to the game the Strizzi squad had piled up 19 consecutive victories.

Hockey League Makes Changes

(By International News Service)

The American Hockey league will make two major changes in its playoff series next month for the team qualifying for the Calder cup and the league championship.

The first change, as announced by league president Maurice Podoloff, is that all the preliminary series will be three-out-of-five instead of the two-out-of-three as formerly.

The second new move is that all the first round series will be between the eastern and western division teams.

The first place playoff series between Cleveland the leader of the eastern division will remain at four-out-of-seven. The winner goes into the finals which will also be a four out of seven series.

The playoffs start March 20. In the only league game scheduled for tonight, Providence goes to St. Louis.

Wampum Meets East Washington Tonight In WPIAL Tournament

Wampum High School's Section 23 champions open their WPIAL Class B Tournament play tonight when they meet East Washington on the Dormont floor at 8 o'clock.

The Indians face a tough assignment for their tournament inaugural. The Galloping Ghosts of East Washington have come along fast this season and should provide a real test for the Indians.

Records compiled by the two teams this season are almost identical. Wampum (13-7) has averaged 63.5 points per game and has allowed its opponents on the average of 49 points per game. East Washington (12-6) has not scored as many points—an average of 48.8 points per game—but has held its opponents to 38.5.

All seven of Wampum's losses came in the pre-league campaign against Class A teams. All six of East Washington's losses came in the pre-league campaign—five of them at the hands of Class A teams.

Two Veterans Apiece

Both teams have two players with WPIAL Tournament experience. Caesar Craine and Paul Johnson of Wampum saw quite a bit of action in last year's tourney against Moon Township and Avalon.

High scoring Bill Dinsmore and Guard Bob Caffrey played for East Washington in the tournament last year. Both teams bowed out in their second tournament outing last year—Wampum to Avalon and East Washington to Carmichael.

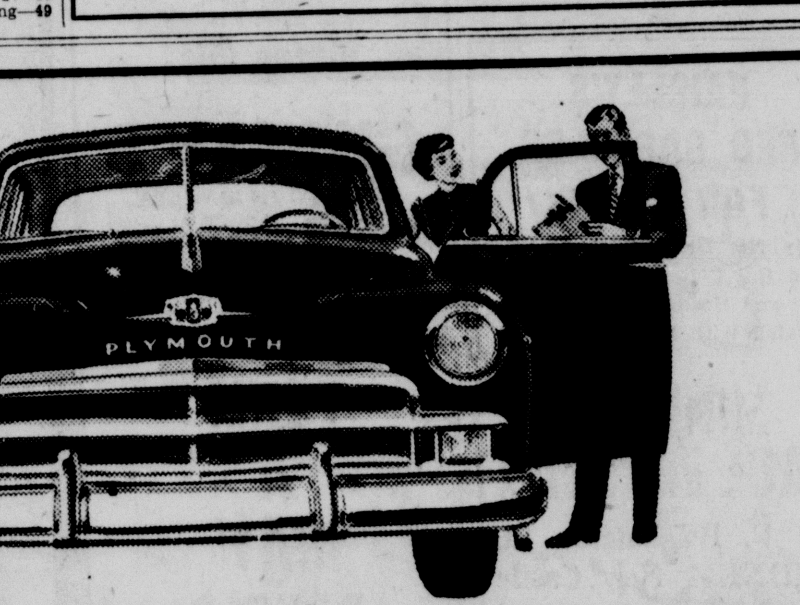

Coach Butler Henson of Wampum will probably start Lou Miller and Paul Johnson at forwards, Caesar Craine at center and Jim Novalesi and John McMillin at guards tonight. Ronald Buccelli, John Swogers and Bruce Bingham should also see a lot of action.

The Indians have been getting in a few practice sessions on several large floors in the district and should feel a little more at home at Dormont tonight than they did in last year's tournament.

May Take Appeal In Acquittal Of Group Of Hawaiians

WASHINGTON, Feb. 27.—(INS)—Attorney General McGrath may appeal to a higher court the acquittal last month of 39 Hawaiians charged with contempt of Congress.

Rep. Walter (D) Pa., revealed today that the Justice department has the matter under study and will make its decision in a day or two.

Walter has urged the department to appeal the cases in view of a new supreme court decision which the Pennsylvania felt strengthened the government's case.

The 39 Hawaiians refused last April to answer questions about communism put to them by a House un-American Activities subcommittee headed by Walter.

The following December the Supreme court held that a witness may legally refuse to tell a grand jury about his affiliations if he pleads possible self-incrimination.

On the basis of this ruling, district Judge Delbert E. Metzger acquitted last month the 39 witnesses of contempt of Congress.

Report Letter Makes Threat On Governor Herman Talmadge

ATLANTA, Ga., Feb. 27.—(INS)—An Atlanta newspaper reported today that Gov. Herman Talmadge's life was threatened by an arsenic-laden letter mailed in New York.

The letter, marked "personal," was intercepted by an aide of the governor's at the capitol.

The Atlanta constitution reported that Georgia Bureau of Investigation Agents found a lethal amount of arsenic sprinkled inside an inner envelope, with an obscene letter.

The letter, according to observers, was "clearly in a feminine hand."

In the note were references to the young chief executive and his father, the late Eugene Talmadge. Racial comments also were included in the written threat on Talmadge's life.

The governor dismissed the incident as the work of "a crackpot."

Mrs. Andrew Mullin, of 1508 E. Washington street, suffered a fracture of the left wrist and left upper arm, when she fell down the cellar steps at her home, Monday afternoon. She received treatment at the Jameson Memorial hospital at 2 p. m.

Michigan State's Jesse Thomas, one of college football's best defensive safeties men during the 1950 season, is an outstanding star on the Spartan track team.

Thomas recently took "first" in the 60-yard dash, the high and low hurdles, and a "second" in the broad jump as Michigan State defeated Penn State and Northwestern in a triangular indoor meet.

If Dykes, who rarely minces words when he has a beef, refuses to conform to the A's long-established "Little Lord Fauntleroy" pattern, they added, his tenure with the club would be brief.

Court House
Court Removes Relief Check
Vet's Allowance Ruled Sufficient

After a hearing before Judge W. Walter Braham on Monday morning, the relief allowance for the family of Henry Lane was stricken off, the court believing the veteran's allowance of \$206 per month was sufficient for the needs.

Lane is in the Farview hospital. He has his wife and six children. It was brought out in the hearing that the wife was getting \$132 per month relief and the children were scattered in various homes. Judge Braham ruled that the veteran's allowance was sufficient for the family needs and ruled out the relief allowance. The hearing was at the instance of the guardian of Lane.

MUST RETURN MONEY

Judge W. Walter Braham ruled Monday morning that Louis Valis must make a return of money received from an insurance company because he has been working. This case was instituted to get judicial permission to make partial restitution. It was alleged by the insurance company that it had paid about \$2800 to Valis for disability allowances. An offer in compromise of \$1000 has been suggested.

SUCKER BAIT

District Attorney Sherman K. Levine has some rather revealing sheets in his office at the present time. They are the instruction sheets of punch boards, supposedly only for the dealer who handles the boards. These came from an arrest when an agent was picked up with a lot of boards and prizes on him.

One is headed Paramount. This board was 720 holes to be sold at ten cents a punch. There are grand prizes listed also the "total average payout" of \$8.28. The profit on the board is \$62.72 less the value of the grand prize, which is suggested.

The other sheet is the "Pick A Penny" sheet, a five-cent board. This has 2205 holes, a total of \$110.25. There are 50 penny seal winners for a total of \$19.75, 50 penny cash payouts and 40 winners at 25 cents each, a total of \$10. The grand total of winnings

MORE DIVISIONS NAMED

EIGHTH ARMY HEADQUARTERS IN KOREA, Feb. 27.—(INS)
—Lt. Gen. Matthew B. Ridgway's Eighth Army Headquarters today identified two more U. S. divisions participating in the United Nations "operation killer" against the Communists in Korea.

Eighth Army headquarters announced that the U. S. 25th Division and the U. S. Seventh are taking part in the offensive.

Previously only the U. S. Second Division, holding the eastern flank of the central Korean offensive, had been identified.

Opposition To St. Lawrence Seaway Planned

HARRISBURG, Feb. 27.—(INS)

—A statewide meeting to "concentrate Pennsylvania opposition" to congressional approval of the St. Lawrence seaway was scheduled today by Acting State Commerce Secretary A. J. Sordani.

He said the meeting will be held at the state capitol during the week beginning March 4.

Gov. John S. Fine, he added, is slated to pinpoint Pennsylvania's opposition to the program during an appearance later in March before the House public works committee in Congress.

"The St. Lawrence seaway project which has been before Congress in one form or another over a period of 50 or more years presently is being pushed as an emergency measure as a power development and seaway," the commerce department reported.

"Throughout its many appearances in Congress, the St. Lawrence project has continuously met with opposition from Pennsylvania. Heretofore opposition to the proposed enactment has been largely on the ground that it

would ruin the anthracite region of the state, would be detrimental to the ports of Pennsylvania, its railroads, all forms of transportation and be inimical to labor as well as an unwarranted public expenditure of funds."

Invitations to the meeting will be extended to mayors, members of state and local chambers of commerce, congressmen and U. S. Senators Edward Martin and James H. Duff, according to Sordani.

It has been proposed, he added, to invite representatives of newspaper publishers, railroads, public utilities, unions, manufacturers, banks, coal producers and truckers.
